Hay Swathers

Whether your forage or grain harvesting needs call for a rotary disc header, a sickle header or a draper header, you'll find the perfect match with a Challenger® SP "C" Series self-propelled windrower.

With either model, you'll experience exceptional comfort and a myriad of standard features that are either optional or unavailable on competitive models, including hydraulic roll tension, hydraulic header flotation, "smart" hydraulic header...

Hay Swathers Products:

SP115C

Condition: New
Horse Power: 120 HP

Choose the SP115C, rated at 120 horsepower (86 kW) for use with the dual-sickle AHC Series headers, AHCT TwinMax[®],^ç sickle headers or the DHW draper headers.

[Engines](#) - Rugged and reliable Challenger[®] Endurance diesel engines power each of the SP "C" Series windrowers, providing Tier III compliance...

[Cab](#) - Challenger SP windrowers provide the ultimate in operator comfort, no matter what the outside temperature or terrain...

SP185C

Condition: New
Horse Power: 190 HP

Step up to the SP185C, which was designed with both the strength and the horsepower to handle the model DKHD and DKHDT Series rotary disc headers, as well as all sickle and draper headers.
